己亥（猪）年 - 2019/2020 之本国市势行情

**Forecast on Domestic Market Trend in the year of Ji Hai (Pig) - 2019/2020**

本学院预测本国—马来西亚于今年（己亥年 2019/2020）在新政体系上台后，市道走势还处于弱势。幸好人民在弱势不景气中还能够以平常的心态去面对，并默默耕耘，希望有助于明日市道的提升，并期待新政体系有着与民同在的开明政策，且能够有效地转型和改善。另外，人民的乐观期待也能促使新政体系造就更好的明天。

在过去的一年里，市道虽在运作主体，但无法兑现人民的要求，而导致今年新行政体失去了先天的辅助，影响走势上有小许失落。不过这并不影响人民所坚持的信念，选择相信新政体系能兑现承诺。金融体系以开放政策来协调各领域的融资，以正能量解开劣势的枷锁，使各行领域前进的动力恢复正常。这不但有利于新经济体系进展策略，对于生活指数亦自然会逐渐改善，人民安居乐业的愿望也将会实现。

预测今年的市道走势在前进平台上，有起落参半的现象。倘若新经济体系在前进方案上，有着重平稳地进取，在前进平台上便可获得佳绩。由于消费饮食业市场此起彼伏落地林立，因而造成过供的倾向。中小企业与工业在劳资方面，可能会失去平衡，就算得到融资上的方便，仍然需要劳动人力的支撑，才能解决劳资失衡的问题。若能扩大人力资源以提升就业空间，将有助于国家在经济领域上得到平衡，并顺势达标。如果能有力地鼓励人民，在行动上拥有积极的思维，配合新行政体系上的需求，摒弃流言蜚语，重视正能量的团结动力，能使政府与人民朝同一个指标前进，同步造就稳定的繁荣。

Institute of Fortune Telling & Geomancy Fan Yang predicts that the market trend is still weak under the new political administration in this year of Pig (2019/2020). It is fortunate that the people in this unfavourable atmosphere still treat it with a calm manner, and still work diligently hoping to boost the coming market trend. People are looking forward for the new administrators to adopt an open policy of embracing the people, and will be able to effectively transform and improve. The optimistic anticipation of the people will also cause the new administrators to bring about a better tomorrow.

The market has been operating in the dominant mode in the past year, but falling short of fulfilling people's wishes, and hence causing the new administration to lose its inherent boost this year. The people's firm faith nevertheless has not been affected by this little deficiency of the new administration. They still believe the new administration will finally deliver. The financial system coordinates financing of all the sectors with an open policy. This positive step breaks up the constraints caused by the previous unfavourable situation, reviving the normal forward thrust of all the sectors. This helps much in the strategy of the new economic system. The Livelihood Index will naturally improve, and the wish of the people to live comfortably will be realized.

We predict that the market trend will present a mixture of ups and downs this year. The market will move up cheerfully if the new economic system adopts a strategy that enables progressing forward steadily. The consumerism and food sectors have abundantly sprung up, causing an oversupply trend. Small and Medium Enterprises and the Industrial Sector may face imbalance in the capital-labour aspect. Besides the provision of credit, the support of the working sector is still essential in order to solve this capital-labour imbalance. Expansion of the human resources to provide employment will help to achieve a balance in the national economic arena, hence enabling hitting the target. If the people can be rigorously encouraged to embrace positive mentality in operations, and coping with the requirements of the new administrative system, disregarding hearsays, and cooperate seriously in their movement, the government and the people will then be able to advance towards a same target and materialize a stable prosperity for everybody.
